

# HIGH-PERFORMANCE DOOR QUICK REFERENCE GUIDE

DOOR MODELS: Turbo-Seal® Insulated® | PredaDoor® NXT® | Powerhouse® | Sure-Seal™

## Common Error Codes

<b>F01</b>	Edge trip - the door came down on something and tripped the reversing edge; if the message does not clear on its own then there may be an issue with the reversing edge circuit
<b>F030</b>	Motor stall - check for something mechanically binding; encoder magnet loose, counterweight strap broken (where applicable)
<b>F060</b>	Door ajar - the door has been impacted return the door to the full open position and hold the reset button to clear
<b>F361</b>	Edge trip – the door came down on something 3 times and will need to be reset by holding down the reset button
<b>F752/852</b>	Reset the encoder; see bulletin 154
<b>F831</b>	Edge open at mobile unit channel 1 - make sure that the resistor on the reversing edge air switch has a tight connection
<b>F856</b>	Wireless communication error - check the mobile unit battery while under load it should read 3.61vdc or greater
<b>F969</b>	Clock chip – the clock needs to be reset; set parameter C01 though C04
<b>Photo eye 222 or 232</b>	Check that all 4 photo eyes are functioning properly and are lined up with each other

This list is of most common error codes; if not indicated above please contact Rytec Technical Support.

## Common Parts

	Turbo-Seal® Insulated®/ Sure-Seal™	Preda-Door® NXT® Powerhouse®
Wireless Battery	R00111193	R00111193
Mobile Unit	R1180001-0C	R1180001-0B
Encoder	R00142058	R00142058
Photo eyes (Receiver) (Transmitter)	1160145-0 (Receiver) 1160153-0 (Transmitter)	00141088 (Receiver) 00141087 (Transmitter)
Controller	R00142000	R00142000
Counterweight Strap	R1170057-0	
End Tabs	R1170827-0	

Additional parts available; please contact Rytec Parts Department.
