The new FlexTec® high-performance, soft-edge door from Rytec includes flexible fabric and features advanced technology plus the industry’s longest mechanical warranty available (1 million cycles*) – assuring unmatched day in, day out durability. Ideal for use where high-traffic, interior applications require increased flexibility and a secure seal. Thanks to the flexible soft edge, entrapment concerns are essentially eliminated and extra protection is ensured for all types of traffic – safeguarding the environments and providing continuing operations.

The FlexTec also features an exclusive 1-ply Rylon™ panel material, providing increased durability and improved wind and pressure resistance over vinyl panels typically used by competitors. In addition, a low-friction drive system (patent pending) is standard. FlexTec models are available for openings up to 16 feet wide and up to 20 feet high.

**Flexible**
- Engineered to flex around obstructions and easily release from side columns

**Self-Repairing**
- Automatically self-repairs without user intervention if impacted from either direction

**High Speed**
- Opening speed of up to 100 inches per second reduces the risk of impact

**Safety is Standard**
- Advanced³ Light Curtain Safety System and Patchwatch® Safety Light System provide unparalleled safety

**Durable Panel**
- 1-ply Rylon panel material resists wear

**Industry-Leading Warranty**
- 1 million cycle/5-year* warranty on motor/mechanical components/panel

*Whichever occurs first.
## FlexTec® High Performance Flexible Edge Door

### Size/Dimensions
- Up to 12'W x 12'H (standard)
- 17" headroom above lintel
- 23" head projection
- Up to 16 W x 20'H [T/XL]
- 27" headroom above lintel
- 27" head projection

### Panel Design
- 46 oz., 1-ply Rylon™ panel
- Vertically and laterally flexible material helps door maintain shape and increase pressure resistance
- Puncture-resistant, polymer-impregnated monofilament polyester fabric

### Travel Speed
- Opening speed up to 100 inches per second

### Operation
- Quiet, low-friction drive system (patent pending)
- Variable-speed AC drive provides soft acceleration and deceleration
- Independent opening and closing speeds provide flexibility to meet any application
- No attached cables or coil cords to repair or replace

### Flexible Soft-Edge
- Vertically flexible to accommodate virtually any obstruction
- Horizontally firm for added stability and uniform seal

### Perimeter Seals
- Edge-to-edge seal at top of door

### Electrical Controls
- System 4® controller housed in a NEMA 4X rated enclosure with factory set parameters
- Intelligent processor monitors and controls power consumption during operation
- Advanced self-diagnostics for troubleshooting

### Automatic Self-Repairing
- Self-repairs and resets without any human intervention
- Intelligent light curtain senses obstructions and automatically reverses when clear

### Safety is Standard
- Advanced³ Light Curtain Safety System
- Pathwatch® Safety Light System
- Flexible edge virtually eliminates entrapment concerns

### Warranty
- 1 million cycle/five-year limited warranty* on motor/mechanical components (including drive teeth) and 1-ply Rylon panel material
- Two-year limited warranty on electrical components

### Options
- Flat or slanted hood and motor cover
- Full-size 20" x 20" vision window(s)
