HIGH PERFORMANCE DOORS

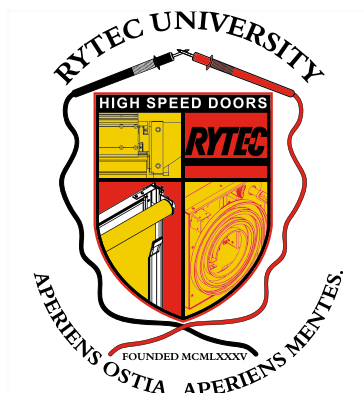

RYTEC® UNIVERSITY

HIGH PERFORMANCE DOOR TRAINING

Rytec University's mission is to educate and train Rytec customers, dealers, installers, contractors and employees. Rytec provides many complimentary amenities for classes attended in Jackson, Wisconsin. The option for remote classes is also available at an additional charge. Courses provide basic-level through advanced-level instruction.

Standard and customized courses introduce students to Rytec high performance doors and door terminology. The comprehensive courses are led by expert trainers and experienced door professionals. Depending on the course, testing may be required.

Upon successful completion of each course, a certificate of completion is issued to each student.

RYTEC PROVIDES (AT NO CHARGE*)

- Two-day service training course
- All training materials
- Hotel room Wednesday and Thursday night
- Breakfast Thursday and Friday at the hotel
- Lunch on Thursday and Friday
- Dinner Thursday night

STUDENTS' RESPONSIBILITY

- All transportation including air travel to Milwaukee, WI and ground transportation to Rytec (Jackson, WI)
- Car rental or ride service due to travel distance between the airport and our facility
- Miscellaneous meals and expenses (if desired)
- Major credit card required by hotel at check-in to cover any extra charges (movies, phone calls, room service, etc.)

CLASSROOM TRAINING

- ▶ Hands-on experience through classroom instruction and demonstrations
- ▶ One-on-one discussions with trainer and industry colleagues
- ▶ Basics of installation, operation, adjustments and troubleshooting
- ▶ Jackson classes feature a factory tour including manufacturing and full-size doors in use

CLASS SCHEDULE

- ▶ Various dates throughout the year
- ▶ Classes held on Thursday and Friday at Rytec Corporation
- ▶ Thursday class begins at 8:00 AM and ends at 5:00 PM
- ▶ Friday class is from 8:00 AM to 3:00 PM
- ▶ Lunch provided each day, along with several breaks

WHAT OUR STUDENTS HAVE TO SAY...

"My experience was excellent. I was able to walk away confident in my ability to service your product line effectively."

- Mike, Rytec Installer

"By far the best training course offered by a door manufacturer."

- Mark, Rytec Dealer

Course	Title and Description	Level
RYTEC 101 Length: 2 Days	Introduction to Rytec High Performance Doors Beginner Level Service and Installation Recommended Audience: New technicians/maintenance personnel with no experience. Description: This course introduces students to Rytec high performance doors and associated nomenclature. It will introduce basic electrical and mechanical troubleshooting, basic controller programming coupled with basic installation instructions. Prerequisites: Rytec pre-test. Outcome: RYTEC 101 Certification after course completion.	Introductory
RYTEC 201 Length: 2 Days	Intermediate Programming and Troubleshooting Recommended Audience: Service technicians/maintenance personnel with previous door experience but limited high performance door knowledge. Description: This course will introduce students to intermediate level hands-on programming of the System 4 controller, including comprehensive technical concepts and advanced troubleshooting for the Rytec System 4 error code listings. Prerequisites: RYTEC pre-test and a minimum of 6 months troubleshooting experience. Outcome: RYTEC 201 Certification after course completion.	Intermediate
RYTEC 301 Length: 2 Days	Advanced Service Training Recommended Audience: Team leads, Rytec Specific Technicians, and/or Field Service Managers. Description: This course will prepare the student to deal with complex issues without the need for factory support. It will include the complete Rytec error code listing with troubleshooting outcomes. Students who complete this course will also be qualified to teach their coworkers Rytec 101. Prerequisites: RYTEC 201 Certification and a minimum of 6 months field experience after completing RYTEC 201. Outcome: RYTEC 301 Certification after course completion.	Advanced
RYTEC 151 Length: Variable dependent on request	Customized Service Training Recommended Audience: Service technicians/maintenance personnel looking for personalized training on specific Rytec products. Description: This course will cover a personalized selection of topics based on their specific needs of customized training. Prerequisites: RYTEC pre-test and a minimum of 6 months troubleshooting experience. Outcome: RYTEC 151 Certification after course completion.	Intermediate
