!!!ATTENTION!!!

Manual supplement. Rytec Fast Seal photo eye change.

The Rytec Fast Seal door has been and can be retro-fit to the Pepperl-Fuchs transmitter/receiver photo eyes.

TRANSMITTER 0014077

RECEIVER 0014078

The photo eye cables provided simply screw on to the photo eye. For wiring information use the schematic provided.

NOTE: the schematic may mention Telco photo eyes use the photo eyes provided and wire exactly as the Telco photo eyes are wired.

To mount the photo eye remove the plastic nut and insert the photo eye into the bracket.

When the Pepperl-Fuchs photo eyes are connected properly the transmitter will have a green light. The receiver will have a green light indicating power and a yellow light indicating alignment.

If you have any questions please contact Rytec Customer Support at 1-800-628-1909
