Instructions for cleaning and care of polycarbonate windows/vision panels in the Rytec Spiral series doors.

NEVER

Never use traditional cleaning agents, glass cleaners like Windex® or all-purpose cleaners.
 Never use ammonia or ammonia-based cleaning products.
 Never use abrasives or powered cleaning products.
 Never use aerosol spray products – the propellant itself may cause damage.
 Never use paper towels, scrub brushes or squeegee-style brushes.

Routine Cleaning

1. Rinse with flowing water.
2. Clean with warm water and a small amount of mild non-abrasive soap. (dish soap).
3. Lightly rinse vision panels using a water spray.
4. Remove excess water using a clean and dry microfiber or lint free cloth.
5. Use a small squeegee to completely dry all panels.
6. Wipe any additional moisture with a dry microfiber or lint free cloth.

Occasional Heavy Cleaning and Fine Scratch Removal

1. Remove all surface dirt and dust with warm water spray.
2. Mix a mild non-abrasive soap (dish soap) into a bucket of warm water.
3. Gently wash using a microfiber or lint free cloth keeping the cloth sudsy at all times.
4. Lightly rinse vision panels using a water spray.
5. Remove excess water using a clean and dry microfiber or lint free cloth.
6. Use a small squeegee to completely dry all vision panels.
7. Wipe any additional moisture with a dry microfiber or lint free cloth.
8. Over the counter products can be used to polish the vision panels. Products such as (Novus Polish #2 – www.novuspolish.com) is designed specifically for polycarbonate windows and will help maintain clarity and shine of the vision panels. Follow the instructions on the product for the proper application. NOTE: Please be sure the product is non-abrasive and designed specifically for polycarbonate windows.
