With an opening speed of up to 60 inches per second, the Spiral® LH® (Low Headroom) rigid rolling door offers the speed needed for high-traffic situations while meeting the low headroom requirements of parking garages and other commercial structures. Rigid, aluminum slat construction eliminates any need for a second overnight security door and the rubber weatherseal provides a tight seal.

Crisp lines give the Spiral LH door a stylish look that’s great for parking and other commercial, institutional and residential applications. Because its anodized aluminum slats will not corrode, you can count on its look to last for many years even under the worst weather conditions. Also available are models designed with 9-inch tall full-vision (Spiral® LH®-FV®) or full-ventilation (Spiral® LH®-VT) slats ideal for specific applications and environments.

Spiral LH high performance is guaranteed with a 5-year limited warranty.

**Solid Security**
- Minimum 1 3/16-inch thick double-walled aluminum slats
- Integral rubber weatherseal
- Continuous heavy-duty hinge system

**Low Headroom**
- The low lintel design requires only 10 inches of headroom clearance

**Ultra Quiet**
- High performance technology and low headroom angled track offer a quiet and unobtrusive operation

**Unparalleled Performance**
- Variable speed AC drive system - with soft acceleration and deceleration - smooths out routine stops and starts

**Energy Efficient & Tight Seal**
- Aluminum slats and durable rubber membrane provides a 100% seal against dust, drafts and inclement weather

**Additional Models Available**
- Full-vision model Spiral® LH®-FV®
- Full-ventilation model Spiral® LH®-VT
  (Spiral LHFV & Spiral LH-VT max width up to 18')
**Spiral® LH®**
**High Performance Low Headroom Rolling Door**

---

**Size/Dimensions**
- Maximum width up to 20’ (standard)
- Maximum width up to 18’ (LH-FV & LH-VT)
- Maximum height up to 16’4”

**Travel Speed**
- Opening speed up to 60 inches per second

**Unique Track Design**
- Special track design allows door to fit in low headroom areas with as little as 10 inches of clearance above the door opening
- Compact, variable speed motor with soft acceleration and deceleration and braking for smooth starts and stops

**Panel Design**
- Integral rubber weatherseal between the slats provides a tight weatherseal across the entire panel
- Patented hinge design allows for removal and replacement of individual slats without disassembling the door panel

**Architectural Styling**
- Sleek, double-walled, clear anodized aluminum slats are 6 inches high with an integral weatherseal between each panel
- Durable ‘Rytec silver’ powder coated finish* is UV-stable and resists rust, corrosion and fingerprints

---

**Electrical Controls**
- System 4® controller housed in a NEMA 4X rated enclosure with factory set parameters
- Intelligent processor monitors and controls power consumption during operation
- Advanced self-diagnostics for troubleshooting

---

**Safety is Standard**
- **SmartSurround® Advanced Detection and Alert System**
  - Intuitive light curtain system + LED safety lights for traffic recognition, detection and alerting
  - Advanced³ Light Curtain Safety System continuously monitors doorway opening
  - Mechanical brake release lever allows door opening in the event of power failure

**Warranty**
- Five-year limited warranty on motor/mechanical components and materials
- Two-year limited warranty on electrical components

**Options**
- Insulated, ventilated or vision slats
- Compact BTA4 remote door controller
- Electric reversing edge with Ry-Wi® Wireless System
- Powder coated finish also available in RAL classic colors or custom match
- Multiple door activation options available; contact factory for details
